News from Mr. Kubik

Frid

Join us for Mass
Mondays at St. Michael
8:15 for 1st Grade
Tuesday at St. John
8:15 for 2nd - 4th Grades

Join us for the Christmas Raffle Drawing

This year's Christmas Raffle will take place November 15th at 6:00 pm at Nick & Ninos
Dine Out Night at Nick & Ninos, Dolce Vita and Sushi Yono! 15% of all sales will come back to MCES.
November 15th is a NO HOMEWORK NIGHT!

Book Donations Requested

If you have any books for 1st Grade and younger, we are looking to grow our new Media Center Library. Please drop them off at the school office in a bag that includes your name/family name. Any donations are greatly appreciated!
Thank you for all donations that have already been received!

Thank you!

Thank you to everyone who attended Parent Teacher Conferences. The teachers and I are grateful for the partnership we have with parents.

Thank you to everyone who returned the Saints + Scholars Press parent survey that went out in the last issue. I appreciate your feedback! -Mr. Kubik

Understanding IOWA Scores

11/11/16

IOWA Assessment results were mailed for students in 6-8th grade and will be sent in Friday folders for Fifth grade! The tests are norm-referenced, which means teachers can use the results to compare student performance to a sample of the student population in the same grade and time of the year across the country.

The IOWA Assessment is not meant to be a traditional academic test; MCES teachers use the results to analyze areas we can improve instruction and help students achieve at a higher level, while also providing additional support when needed.

When looking at results, the main thing to check for is growth from the previous year. The IOWA Assessment is just a snapshot of ability. Every student succeeds at his/her own level!

Below are the three data points that we look at on the results:

SS = Developmental Standard Score

This number is one from a continuum that continues from Kindergarten through 12th grade. The median by spring of Grade 4 is generally 200 and the median by spring of Grade 8 is generally 250. This is typical performance, but not representative of every student.

The graph below shows the typical median score for each grade level. If your child is below that number, it does not mean he/she is behind. The best way to analyze it, is to look for growth from last year.

Grade	5th	6th	7th	8th
SS	214	227	239	250

GE = Grade Equivalent

This number describes the performance in terms of grade level and months (2.3= 2nd grade; 3rd month) and represents how a student

achieves in one month in the same grade as a 7th grader with 3 months in one month in the same grade as a 7th grader with 3 months. It means they are capable of doing work at an early seventh grade level; it means a typical 7th grader would score similarly on the 5th grade test.

NPR = National Percentile Rank

This number shows the student's standing within the group of

students in the same grade who were tested at 72%. A score of 72 means the student scored the same as, or higher than 72% of the students who were in the same grade and took the same test.

Saints + Scholars Staff Highlight

Laureen Hussey

What do you do at MCES?

I am the new Finance Director for Monroe Catholic Elementary Schools.

How long have you worked at MCES or one of our founding schools?

I have been here for 8 weeks.

What is your favorite part of working here?

Seeing our students and working in the Catholic environment.

What was your favorite subject to learn about when you were in school?

Math!

What does our theme: "Saints + Scholars" mean to you?

The Saints + Scholars theme motivates me and reminds me to strive to be a better person, mom, and wife.

11/12 -Try hockey for free day at the Monroe Multi Sports Complex from 2:30-4:30 . Equipment including skates will be provided for free. The SMCC hockey team will be on hand to help and skate with the kids on the ice.
