

*"MCES was a huge help for me in the long run. It really helped me get used to staying on top of my school work on a daily basis. Teachers expected a lot out of us but they were still there for me when I needed them. I really liked how at MCES I was always able to be close to all of my classmates and meet new people each year as well."*

Zach, MCES Class of 2016

521 South Monroe Street

February 24, 2019 Open House 1:00pm till 3:00pm

*"MCES offers many programs that most other elementary and middle schools do not. MCES has an amazing French program that ties in with SMCC's French curriculum. MCES also has a drama program and annual school play. MCES has a very active student council that I was a cabinet member on. From this, I learned great leadership skills. And most importantly, MCES has an attentive staff that is dedicated to the education of each and every child's educational needs. I have made life long friends and memories I will never forget at this school."*

Marissa, MCES Class of 2016

*"The thing that I loved the most when I went to MCES was that everyone was so nice and welcoming. We had our own little community, where everyone knew just about everyone and we could support each other in times of difficulty. I also LOVED all of the amazing teachers that I was so lucky to have! They continually helped me during my time at MCES and prepared me for SMCC. The content that I learned at MCES really helped me when I started at SMCC."*

Abby, MCES Class of 2016
